

I CAN ALWAYS COUNT ON YOU

I will love you till I die after that I will love you forever
Cause you are mine
When the golden roses bloom when the snowflakes fall from the heavens
I'll have you
There may come a time when love it won't let me hold you
But we'll be fine
When times are hard and friends are few
I know I can always count on you

CHORUS

*Cause you'd walk through fire and rain
You'd do what it takes to ease my pain
You don't need to do the things you do
That's why I need you*

Every now and then I think of friends who've gone before me
I rest my pen
I set my memory free it takes me back to times forgotten
Like a passing breeze
Then your perfume fills the air you smile and ask me what I'm thinking
I know you care
When I need someone to pull me through
I know I can always count on you

CHORUS

Years have come and passed hearts and promises been broken
We've cried and laughed
You've been our guiding light you've lifted hearts when they've been heavy
You shone so bright
Now the children laugh and play on knee you cradle them with love
You sing and sway
When they fall and need a hug are two
They know they can always count on you

CHORUS
