

Judgment Day

**Come along darlin' will you walk my way
They say it won't be long until the Judgment day
What we gonna do if the sky falls down
Are we all gonna die in this little old town**

**Come along darlin won't you kiss me sweet
They say it won't be long until the angels we meet
I hope we get time before the angels sing
To show you my love and you can wear my ring**

**The preacher always says the sky will turn to red
The ground will open up and all of the dead
They will rise up and lead the way
The bible calls it.. Judgment Day**

**Come along darlin won't you take my hand
It won't be long until we're in the Promised Land
Sailing our boat along the River of Life
Our Destination Paradise**

**So come along darlin let me see you smile
You better hurry up we're running out of time
I thought I saw the stars falling from the sky
And the Angels singing 'Alleluia in the High'**

**The preacher always says the sky will turn to red
The ground will open up and all of the dead
They will rise up and lead the way
The bible calls it.. Judgment Day**
